

# Intellectual Property and Technology

---

The Larkin Hoffman intellectual property team advises clients on a full range of IP and brand management issues, including protecting inventions and trade secrets, buying, selling and licensing technology, developing new products, expanding an e-commerce presence, and resolving technology disputes and infringement claims.

Services we provide:

- Copyrights, Trademarks and Brand Protection
- Information Technology, Internet and E-Commerce
- Technology Transfer and Licensing
- IP and Technology Litigation
- Patents
- Post Grant Proceedings
- Data Privacy and Cybersecurity

We work first to understand the unique business, technology and goals of each client – where your company fits in a particular industry and what competitive pressures you face. We then guide you through the legal complexities to build effective strategies to reach your goals. We understand technology, we understand business, and we stay current with evolving legal issues to deliver effective, cutting-edge strategies for clients.
