

## Women's Networking Initiative

---

Women attorneys at Larkin Hoffman have been leaders in both the business and legal arenas. More than 10 years ago, our professionals initiated a new type of event to create an opportunity for professional women in business and law to meet, establish connections and deepen existing relationships in a fun and enthusiastic environment. The event has been so successful that it has become the model for many firms in our market.

Our well-attended events have taken place in a variety of settings handpicked by our professionals to make the most of the experience for all attendees. Great attention is paid to the details that make a great event a signature event. Venues have included the Minneapolis Institute of Art, Como Park Conservatory, Minnesota History Center, Walker Art Center, Target Field, Minneapolis Public Library and Museum of Russian Art.

From the beginning, we have sought to use this platform to bring attention to a worthy cause. For every event, we partner with a charitable organization and promote its cause. We are proud to have created a wonderful opportunity to build and strengthen our professional connections while contributing to the success of our community.

**Larkin Hoffman is an equal opportunity/affirmative action employer.**
