

Debt Restructuring and Bankruptcy

The Larkin Hoffman debt restructuring and bankruptcy team advises across a broad range of debtor, creditor and corporate issues. We work with clients to identify the options available, the risks involved, and how best to achieve a client's business objectives.

We provide counsel in the areas of bankruptcy, debt relief, debt restructuring, workouts, reorganizations and related litigation, including preferences and fraudulent transfers. Our team advises both debtors and creditors on resolving financial disputes, whether in negotiating a deal between opposing parties or litigating collection matters. We have deep experience as Chapter 11 counsel.

Our team's expertise also includes bankruptcy-related transactions including the purchase and sale of insolvent companies as well as corporate reorganization outside the bankruptcy process. We also advise on corporate debt restructuring, bank negotiations and related business transactions.
